My Garden Plan

My Site

Name		Location / ZIP	
Setup		Sunlight hours	
Water source		Soil or growing mix	
Hardiness zone		Last / first frost	

MY CROPS

One card per crop and variety. Record final spacing, which may differ from seed spacing.

Crop / Variety

Season
plant now or later?
How many
Direct sow or transplant
Final spacing / depth
Date / verify

Outside Georgia?

Ask your local Cooperative Extension office for your frost dates and a vegetable planting calendar.

My Garden Plan (continued)

My Garden Layout

Label directions, mature plant sizes, paths, and water access. My grid scale: one square = _____
In the Northern Hemisphere, place tall plants on the north side when practical.
Example: one square = 6 inches, so a 4-foot side = 8 squares.

Soil and Care Decisions

Soil test / growing-mix label: status and recommendation

Material, amount, units, and basis for any addition

What I will watch and record; when I will reassess

My Next Action

First action: _____ Date: _____

What must I verify? _____

Where will I check? _____ Reassess on: _____
